FESTIVAL RIDER 2022-2023

BACKLINE

The Raider below is made for festivals but can give a good knowledge of our wishes and requirements for individual gigs as well. The festival is responsible to set us up all backline. Please see requirements below.

IMPORTANT

All instruments and vocals are wired via our IEM rack. **The rack has 20 outputs that goes to FOH, see "channel IEM" appendix .**

GUITARS AND BASS

Guitar is going direct to FOH via our IEM rack. *A Marshall JCM 800 (or similar) + 1 pcs 4x12 cabinet would be great as a backup.*

One spare guitar tuned in D. Strat/Jackson style but with humbucker, stringed with 010 - 046.

Bass is going via a EBS preamp to FOH via our IEM rack. *A Bass AMP would be great as a backup.*

LEAD VOCAL & BACKING VOCAL

If we bring our IEM rack, we cover the mics for vocal as well all stage monitoring. With that said, it would be great if you can supply us with 1 pcs of WL for lead vocal, preferred brand/model Sennheiser EW500 G4 with 935 capsule and 2 pcs of backing vocal mics, preferred brand/model Sennheiser e945 as a backup.

Please confirm all frequency allocations before ordering licenses.

Any cost for WL licenses is for the promoter to pay!

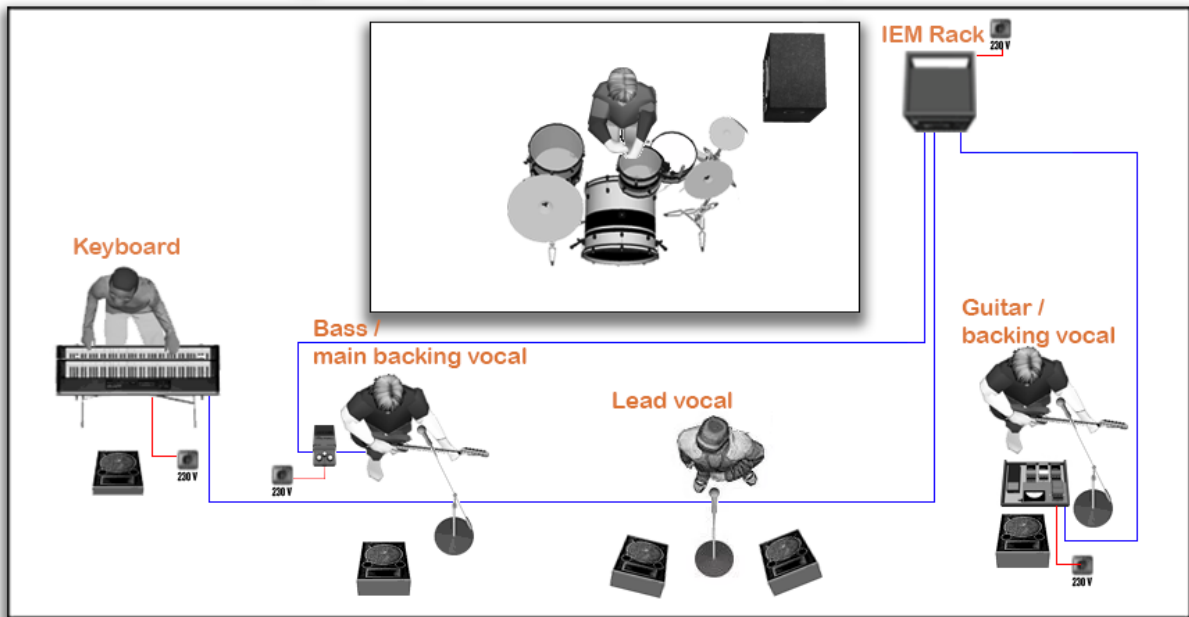

If you can't fulfil our request about Sennheiser WL G4 system. Please, at least avoid any 2.4 G WL systems.
